5 out of 5 mice

5 out of 5 stars

THE QUEEN'S AWARDS
FOR ENTERPRISE:
INNOVATION
2008

Traffic connects to a wide range of popular accounting packages. Below is a list up to date as of January 2010.

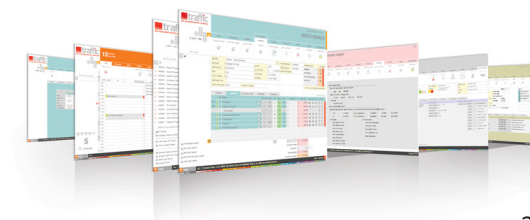

For the majority of packages our links are two way so the transfer of data is completely automated, and any errors are handled by Traffic.

If your accounting package is not listed please ask. We supply ledgers in CSV format which should allow import into most packages - or we can write a custom link for you.

Accounting Package	Version	Country	Platform	Import Method
MYOB Accounting Plus 2009	18	Australia	Windows	CSV Import
MYOB Accounting 2008	17	Australia	Windows	CSV Import

Other Account Packages

Concepts **		UK	Windows	CSV Import
Access Dimensions ***		UK	Windows	CSV Import
Sage Line 200		UK	Windows	CSV Import
Maconomy		UK	Windows	CSV Import

Please be aware of the following:

1. You will require a fully licensed version of the product for Traffic to connect to it.
2. These links have varying capabilities and are subject to version limitations.
3. We also supply the ledgers in CSV format so you can use them in other packages, or we can write a custom accounting link for you. Please ask.
4. If you upgrade a package there is every possibility your link will stop working. It is essential you contact Sohнар so that we can confirm your upgrade will work and that we have a member of the team booked to check/undertake the required work.

**functionality requires the involvement of Concepts to be enabled.

*** for Traffic to access Access, Transaction Broker is required. This is not included in the sale, this is the responsibility of the client to purchase and install.
